EXECUTIVE DIRECTOR, UNITAR

E-COURSE ON GENDER EQUALITY AND HUMAN RIGHTS IN CLIMATE ACTION AND RENEWABLE ENERGY

NAME: Kailash S

DATE OF ISSUANCE: March 9, 2022

LEARNING OBJECTIVES:

- Describe the nexus between gender equality, human rights, renewable energy, and climate change
- Explain how a gender responsive and human rights-based approach in climate action leads to economic, social, and environmental benefits
- Recognize international and sectoral commitments on gender equality, human rights and climate change and their relationship with national priorities and policies
- Identify entry points for gender and human rights in renewable energy policy and action
- Select and apply tools and approaches for the promotion of human rights-based and gender responsive renewable energy action
- Discuss targeted opportunities for women in climate change and renewable energy, with a particular focus on multi-stakeholder collaboration, renewable energy entrepreneurship and access to finance.

MODULES – LEARNING PATHWAY 1

1. Introduction to Gender Equality and Human Rights in Climate Action and Renewable Energy
2. Gender Equality and Renewable Energy: How to Implement Gender Responsive Renewable Energy Policies and Entrepreneurship

DURATION: 4 estimated hours for completion.

This e-course is jointly developed by the One UN Climate Change Learning Partnership (UN CC:Learn), the UN Environment Programme (UNEP) and the UN Entity for Gender Equality and the Empowerment of Women (UN Women) under the project EmPower: Women for Climate Resilient Societies, with the support of the Swedish International Development Cooperation Agency (SIDA).
